## The World Changed and it was right on our turn

This two-week challenge focuses on developing a great virtual immersion experience for those students who want to discover the **Amazon Region.** In the first week, students attend workshops to learn about the Business Context of the Amazon and its **Opportunities, and in the second** week, they will have mentoring sessions with local entrepreneurs.

# AMAZON EXPERIENCE

The Amazon Experience CESUPA Challenge applies the Game Based Learning Methodology. The objective is to expose the participants to a real living environment, which encourages the student to develop 21st Century Skills, such as Critical Thinking, Creativity, Collaborative Teamwork, Leadership, **Communication**, among others.

The main objective of our game is to help develop a new preservation

to help develop a new preservation mentality linked to the social and economic development of the Amazon Region.

Each group must develop a business model that uses inputs from the Amazon forest, focusing on exports, but without commercializing the inputs as raw materials.

#### Number of participants: Max. 60 Students From All Over the World

Team Division: 4 to 6 members per team

Challenge Goal: Teams must develop a social-environment Business Model to export products from the Amazon Region

Wins the challenge the one presenting the most eco-efficient & profitable business model

**Registration Fee:** \$ 50 (US Dollars)
